

NineStar is searching for a **GIS Specialist**

Looking for a one-of-a-kind career in a growing field, working for an innovative and fast-moving company? NineStar Connect is currently seeking to fill a GIS (Geographic Information Systems) technician position responsible for updating, maintaining, and troubleshooting multiple GIS databases, as well as assisting Engineering Department personnel with other Engineering applications.

Job Requirements

Applicants should have a minimum of an Associate's degree in Geography, Cartography, or related field, plus 1-2 years practical experience with data conversion and use of ESRI ArcGIS software is required. An understanding of remote sensing and cartography principles is a plus. The applicant also must have a strong proficiency with computers, experience and knowledge of Windows and Microsoft Office suite is required, as well as, a comprehension of AutoCAD and GPS (Global Positioning System) data collection units and software. The applicant will, and be able to, express themselves effectively in writing and/or verbally to other company employees, customers, and coop members. A knowledge of electrical distribution and telecommunication utility standards and practices is a plus, but not required.
