

Senior Network Engineer

NineStar is looking for a SME for networking issues, guidelines, maintenance and installation. This position will also assist in creating relevant Net Ops guidelines and standards, research and test new platforms/technologies, and help provide training and support.

Ideal candidates should have advanced knowledge of:

- Network and specific Cisco protocols and technologies (Trunks, Dot1q, STP, PIM, MPLS)
- Cisco IOS, IOS-XE, and IOS-XR
- DSLAM providers and services

Must have High School Diploma or equivalent, CCNA, Computer Operations and/or system administration experience. Prefer candidates that have an Associate's in Computer Science or related field, and are working towards their CCNP.

Direct all inquiries and resumes to Human Resources, HR@ninstarconnect.com, 2243 E. Main Street, Greenfield, IN 46140, or apply online at www.ninstarconnect.com.
