Less than \$1 a day
Lease your water heater from NineStar Connect, and leave the hassle to us

SAVE ON YOUR ENERGY BILLS

with a top of the line
water heater

Best Construction

No rust, no corrosion -- EVER! Unique 2-ply PermaGuard design. Great for "brutal well water" conditions.

Best Durability

Toughest and strongest tank in the residential water heater industry. Regularly tested to withstand 100,000 cycles from zero-to-150 psi.

Best Functionality

No anode rod means no rotten-egg smell from sulfates found in many water systems. Self-cleaning action of bowl shaped tank bottom provides for more complete draining.

High Efficiency & Best Value

Save on your energy bill. 2.5 inches of Envirofoam® insulation minimizes stand-by heat loss. The renowned durability eliminates the cost of buying and the cost of re-installing a new water heater every 10-years (national average).

Benefits of Lease Program

Service performed free of charge
No tank to buy, no installation charge
Convenient and easy - applied to your NineStar bill each month

Did you know, on average ...

Water heating accounts for 14 to 25 percent of the energy consumed in your home. Using energy more efficiently can lower your energy bills, improve the comfort of your home and help decrease our dependence on foreign oil. When it's time to replace your water heater, be sure to select an energy-efficient electric model that fits your needs - this could save you 10 to 15 percent yearly!

Water Heater Lease Program

- Exclusive to NineStar Residential Members
- 5-year lease agreement
- Includes standard installation & maintenance
 - Installation includes removal & disposal of old appliance
 - Lessee responsible for non-standard installation costs
- Monthly lease payments added to electric or other NineStar bill
